

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. Glasses for use in sports activities, the glasses comprising:
a frame;
at least one lens formed to the frame;
a strap formed to the frame and configured to inhibit the glasses from falling off of a wearer;
a leash formed to the strap; and
a collar formed to the leash.
2. The glasses as recited in claim 1, wherein the frame comprises a flexible frame.
3. The glasses as recited in claim 1, wherein the frame comprises a resilient polymer.
4. The glasses as recited in claim 1, wherein the frame comprises rubber.
5. The glasses as recited in claim 1, wherein the lenses comprise sunglass lenses.
6. The glasses as recited in claim 1, wherein the lenses comprise prescription lenses.
7. The glasses as recited in claim 1, wherein at least one of the strap, the leash, and the collar comprise neoprene.
8. The glasses as recited in claim 1, wherein at least one of the strap, the leash, and the collar is sufficiently buoyant so as to float a pair of glasses.
9. The glasses as recited in claim 1, wherein the collar comprises a release.
10. The glasses as recited in claim 1, wherein the collar comprises a Velcro release.
11. The glasses as recited in claim 1, wherein the strap is removably attached to the frame.
12. The glasses as recited in claim 1, further comprising two earpieces formed to the frame via which the strap is formed to the frame.

13. A leash assembly for glasses, the leash assembly comprising:
a leash configured to attach to glasses; and
a collar formed to the leash.
14. The leash assembly as recited in claim 13, further comprising a strap to which the leash attaches, the strap being configured to attach to a frame of a pair of glasses and configured to inhibit the glasses from falling off of a wearer.
15. The leash assembly as recited in claim 13, wherein the leash further comprises a loop formed in one end thereof to facilitate attachment to a strap.
16. A leash assembly for glasses, the leash assembly comprising a strap and a leash, wherein the strap is sufficiently buoyant so as to float a pair of glasses.
17. (cancelled)
18. A method for making glasses for use in sports activities, the method comprising:
providing a frame:
forming at least one lens to the frame;
forming at least one strap to the frame;
forming a leash to the strap; and
forming a collar to the leash.
19. (cancelled)
